

K for Cat®

Complementary feed rich in potassium
for cats and dogs

K for Cat®

Complementary feed rich in potassium for cats and dogs

PROPERTIES

Complementary feed rich in potassium. Potassium is the most abundant intracellular cation in the organism. It has two important functions: it acts as an enzyme cofactor and in maintaining membrane potential.

USE

Complementary feed for cats and dogs, **contributes to restoring serum potassium** levels in the context of medical follow-up.

INSTRUCTION

Cats: one capsule morning and evening.

Dogs: generally, one to two capsules per day for 5 kg of weight.

To be swallowed directly over the course of a meal or to be opened and mixed in with food.

Precautions:

Regularly monitor serum potassium levels. Do not leave within reach of children. Do not use in cases of hyperkalaemia.

MAIN INGREDIENTS

For a capsule:

- Potassium gluconate: 2 mEq (468 mg)
