The **EVOLUX MAX** offers a perfect combination of high performance, versatility and user-friendliness that will inspire you. Experience the future of cleaning – **fast, efficient and convenient!**

IPC Intelligent Power Control (IPC) detects the level of dirt. It automatically adjusts the suction power and always ensures the ideal cleaning performance with minimal energy consumption.

HYGIENIC HARD FLOOR CLEANING AND CARE

EVOLUX MAX EVO HydroMop polisher – the perfect hard floor cleaning, efficient moist mopping & polishing including vacuuming in one step. Hygienically clean. The **EVO HydroMop** cleaning pads have an ideal combination of different microfibres for almost every occasion.

Accessories:

Motor Brush Carpet*

Ideal for low-pile carpets and other textile-related surfaces. Easily remove stubborn dirt and hair - including animal hair.

EVO HydroMop*

The future of cleaning! This unique brush combines vacuuming and mopping for thorough cleaning of hard floors. This brush is also equipped with an LED light so that dirt no longer has a chance.

Microfibre cleaning pads for EVO HydroMop*

For damp cleaning of hard floors. Consisting of various high-quality microfibres

ROYAL A83 TENSINO*

Surfactant-free, low-foam high-performance cleaner for sensitive surfaces such as: vinyl, porcelain stoneware, stainless steel, highly polished marble and granite, chrome, plastic (except plexiglass), textiles, and much more.

Extra Battery*

Can be easily charged in parallel at the charging station.

* order separately
