Space-Saving Wall Hanger

Made in Germany

YOUR PARTNER FOR A HEALTHY HOME
SINCE 1901

Breathe easier, live better. For a healthy life, we need clean air.

Protect yourself and your loved ones from indoor air pollution with Lux AEROGUARD 360° Premium.

We breathe 12 kg of air every day, therefore it is crucial to breathe clean air! It has a major impact on our health.

VOCs (Volatile Organic Compounds) are chemicals found in a variety of household products, including paint, cleaning supplies, and air fresheners. They can cause a range of health problems, from headaches to cancer.

Over 150 million Europeans suffer from chronic allergic diseases which have increased dramatically during the last decades.

Indoor air pollution can also come from mold and allergens, such as dust mites and pet dander. These pollutants can trigger allergies and asthma symptoms and may also contribute to respiratory problems.

Children and elderly people are especially vulnerable to viruses and bacteria, as their immune system is weaker. Asthma is the most common chronic disease among children.

People spend most of their time indoors. Indoor air pollution can cause respiratory problems, including asthma, bronchitis and even lung cancer.

AEROGUARD

Get the Most **Advanced Purifier** from Lux!

3 different sizes:

Height size small 47 cm

Height size medium 57 cm

Height size large 77 cm

- **Made in Germany**, designed in Switzerland

3 different
colors

Proven Filtration **Technology**

1 / PRE-FILTER

Pre-filter catches larger particles such as dust, pet dander and hair,
Available in black, red, grey

2 / HEPA 13

HEPA 13 performance delivers filtration efficiency of 99,95 %

3 / ACTIVE CARBON FILTER

Heavy Carbon filter for reduction of bad odours , dangerous gases, VOCs, formaldehyde, tobacco smoke and food smells

4 / NANOPURE

Ultra-efficient and safe solution for removing microbial and chemical contaminants

5 / DUOTRON

Reduces bacteria growth on surfaces

6 / AEROBLOCK

Loaded with organic and essential oils, Aeroblock encapsulates all bad odours

A variety of fragrance options

Aeroblocks are natural odour-eliminating blocks for use in AEROGUARD air purifiers. Made from non-allergenic oils, the Aeroblocks encapsulate and neutralize smells, taking particles out of the air. Gently perfumes the room • Supports the filtration efficiency • A variety of fragrance option

Enjoy fragrant, clean
and healthy home.
