

INTRODUCING

The NEW Uniprof

TAKE THE CLEANLINESS TO THE NEXT LEVEL
with the professional floor scrubber

ENSURES A CLEANER ENVIRONMENT

- in sport facilities
- in education institutions
- in hospitality
- in elderly homes
- in healthcare
- in industrial segment
- in offices

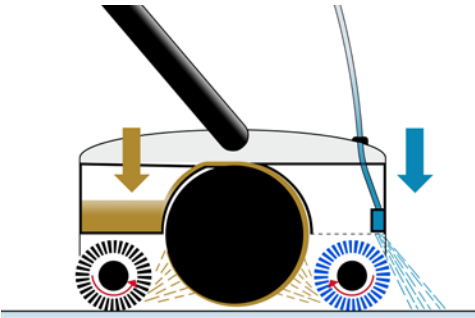

WHY THE NEW UNIPROF?

Cleanliness of your hospitality has effect on the **comfort and satisfaction**.

Every kind of flooring has its own special properties and problem areas. The New Lux Uniprof is the **perfect solution in any facility, for many surfaces**.

KEY IMPROVEMENTS

- Easy to built up with just 2 screws
- Better easier start of the machine
- Smoothness running
- Better water absorption, dries faster
- Bigger dirt water tank
- 50% stronger motor
- Capsuled gear box
- More convenient in use
- Bigger brush roll
- Sealed conveyer drum
- Properly integrated pumphousing

INTELLIGENT TECHNOLOGY

The secret is in the counter-rotating brush rollers: Water is spread on the floor at the pull of a handle. The two counter-rotating brush rollers clean the floor, pick up the dirty water and throw it onto the discharge drum. From there, the water is stripped off and, with the dirt, reaches the waste water pan.

SAFETY COMES FIRST

Nothing works without the safety pedal. Only when the driving rod has been unlocked the Lux Uniprof can be operated.

PRESSURE AS REQUIRED

The brush pressure can be customised to the ground type in four stages using the convenient lever.

EASILY FROM A TO B

The lever moves the transport rolls conveniently in and out. The rolls additionally protect the brushes from warping when the machine is not in operation.

Ergonomic

It has a robust construction and user-friendly usage. It's handle ensures the safe carrying of the machine.

Eco-friendly

Perfect for daily maintenance cleaning with tap water, even without any chemical detergent.

Save time and money

Thanks to the easy handling and minimum water consumption it can save your money and time.

THE APPROPRIATE TOOL FOR EVERY REQUIREMENT

The New Lux Uniprof has the correct working width for every need. The standard models are equipped with a tank and fine-spray pump as standard features for an optimal cleaning result.

Model		Uniprof S	Uniprof M	Uniprof L
Voltage AC (~) / Frequency	V/Hz	230/50	230/50	230/50
Motor Power (+ pump)	W	750 + 26	950 + 26	1150 + 26

The brushes

We offer the correct brush for any flooring: The brush rollers, with their spiral-shaped construction, collect all the dirt and dust without omitting any depression in the flooring.

In every corner

The side brush reaches every corner. Ideal in the kitchen to clean under recessed skirting boards or in washrooms under the separation panels.

MobiLux

MobiLux is the ideal accessory for longer distances or stairs. The New Uniprof can thus be carried safely and comfortably to any place where it has to be used.
